Profile

B.Tech CSE (2027) student passionate about building scalable mobile and web applications. Delivered 3 production-grade Android apps using Kotlin & Firebase. Currently specializing in **React Native + Tailwind CSS (NativeWind)** with strong native Android background.

Experience

Android App Development Intern *Jun–Aug 2025*

1STOP.AI · Remote

- Built 3 full-featured apps (Chat, Weather, News) in Kotlin
- Implemented Firebase Auth & Realtime DB for live features
- Integrated REST APIs with RecyclerView & dynamic XML layouts

Web Development Intern *May–Jun 2024*
UNIQUESDATA · Ahmedabad

- Developed multiple responsive websites using HTML, CSS & JavaScript
- Focused on semantic design and cross-browser compatibility

Projects

SpendLock — Subscription Manager *React Native | Expo | Tailwind*

- Modern subscription & expense tracking app with analytics & reminders
- Built using Expo Router, NativeWind (Tailwind CSS) & TypeScript
- GitHub | Live Demo

Real-Time Chat Application *Android*

- Full-featured messaging app with Firebase Auth & Realtime sync

Real-Time Weather App *Android*

- Live weather app with location-based forecast and dynamic UI

Job Recommendation System *Ongoing*

- FastAPI + DSA based personalized job matching engine

Education

B.Tech — Computer Science & Engineering
University College of Engineering & Technology,
Bikaner Technical University
Expected 2027 CGPA: 7.5/10

Skills

React Native Expo

Tailwind CSS (NativeWind)
